

ELECTRICAL TESTING CENTER

(विद्युत परीक्षण केंद्रः)

Electrical Testing Center (विद्युत परीक्षण केंद्रः) is an independent, self-sustaining, multidisciplinary third party Testing, R&D and Technical Service Provider in the field of Electrical Engineering. We committed to provide Technical Services to Industry, Government Utilities, Certification Agencies and other organizations with a vision of overall quality growth.

Reliability - सत्यम्, Knowledge - ज्ञानम्, and Technology - विज्ञानम् are active forces leading us towards front.

In today's competitive world, choice of reliable quality service partner can make the difference between successor and leader.

Working with you, ETC expert service contribution leads your product with a quality, reliability, environment friendly and safety.

Accredited by NABL for ISO 17025-2017 wide certificate no. TC-8682.

ETC TESTING SERVICES for VALUE ADDITION to your product for national / international compliance. Your road to excellence through ETC Quality assurance. ETC is Adequately equipped with competency and advanced lab infrastructure.

ETC R & D and Consultancy Services : ETC pleased to extend technical services to the Electrical Industries, Utilities and Organizations willing journey towards overall quality growth. Special attention to Product under development, Turnkey projects for QC Laboratory, Assistance in Accreditation of Laboratory for ISO 17025-2017, Services for Internal audits

ETC TRAINING & SKILL DEVELOPMENT : ETC feels delighted being reason of our customer success and progress. Skilled; updated mind force is the backbone of organisation for continual improvement & growth towards greater heights, every day. On job training, Class room training, Role of QC engineers, Testing & Evaluation of Cables, Understanding and implementation of QC tools, 5S, measurement Un Certainty, six sigma, Internal Auditor for ISO17025-2017, Cable installation practices and other topics in visualization by Organisation

ETC 3rd PARTY INSPECTION : Cables in general, are hidden and forgotten, once installed. In case of Fire accidents, short circuit of cable is very common targeted reason. Pre-compliance testing "Product at its proto-type stage" and Compliance testing "Product at its final stage" are necessary to achieve desired performance from a cable. ETC services available to Manufactures, Utilities and End Users for Stage inspection / Pre dispatch inspection

We eager to serve you,

NileshPandya
